

EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2023-2027	B.Tech Computer Science Engineering	KIIT University, Bhubaneswar	8.15 CGPA
2021	CBSE Class XII	M.P.S	84.6%
2019	CBSE Class X	IHHS Academy	81.3%

EXPERIENCE

- AICTE Virtual Internship - AI Machine Learning-Google AICTE

Jan 2025 - March 2025

All India Council for Technical Education

Virtual

– Completed hands-on training in Machine Learning and Deep Learning using TensorFlow.

– Learned Neural Networks, Computer Vision, and ML model training workflows.

– Learned concepts of model evaluation, training pipelines, and dataset preprocessing.

Research Project - Blockchain-Based Secure Communication in Internet of Vehicles (IoV)

Jan 2026 - March 2026

Independent Research Work

KIIT University

– Developed a blockchain-based framework to secure vehicular communication networks.

– Designed decentralized architecture integrating vehicles, RSUs, and blockchain nodes.

– Addressed security challenges including data tampering, trust management, and centralized system vulnerabilities.
- PROJECTS
- Wanderlust – Travel Listing Web App

Feb 2026 - March 2026

Node.js, Express.js, MongoDB, EJS, REST APIs, MVC Architecture

Github

– Developed a full-stack travel listing web application using Node.js, Express.js, MongoDB, and EJS following MVC architecture.

– Implemented RESTful CRUD operations for listing management including title, description, price, and location.

– Integrated authentication and session management for secure user access.

– Built dynamic server-rendered pages using EJS templates and optimized routing using Express.js.

– Backend development experience building RESTful APIs using Node.js and Express.js.

DocuMind AI – Intelligent Document Query System using RAG

March 2026

Python, FastAPI, LangChain, FAISS, HuggingFace, Groq API, HTML, CSS, JavaScript

GitHub

– Developed an AI-powered document assistant using RAG to enable natural language querying .

– Implemented semantic search using FAISS and embeddings for context retrieval .

– Integrated Groq LLM for generating accurate responses .

– Built a responsive chatbot interface using HTML, CSS, and JavaScript with real-time API integration via FastAPI.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Problem Solving: Solved 200+ Data Structures and Algorithms problems on LeetCode

Web Development: HTML, CSS, React.js, Node.js, Express.js, EJS

Databases: MongoDB, MySQL

Tools & Technologies: Git, Tailwind CSS, Jupyter Notebook, Visual Studio Code

Operating Systems: Linux, Windows

Concepts: OOPs, REST APIs, MVC Architecture, Backend Development

KEY COURSES TAKEN

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Programming: C Programming, Java Programming, Python Programming

CERTIFICATIONS

Red Hat Certified System Administrator (RHCSA) – Red Hat

Certified in Linux system administration.

Hands-on experience with Linux system administration, shell scripting, and system configuration.

Alpha DSA with Java – Apna College

Completed comprehensive training in data structures, algorithms, and problem solving using Java.

POSITIONS OF RESPONSIBILITY

Finance and Marketing Team Member, KRAYA & KUBER Society, KIIT (2023),

Actively contributed to planning ,budgeting, and promotional strategies for society events.

Assisted in organizing finance and entrepreneurship events to promote financial literacy among students.

Collaborated with team members to execute marketing campaigns and increase event participation.
